Res-Q Squad is ready for

The ResQ Squad's high-tech rescue vehicles get them quickly into the most extreme places. And their extra special emergency equipment helps them save the day!

ARIEL

Ariel is the best copter jockey in the sky. When a stretcher has to be lifted to safety, she can keep the helicopter hovering as steady as a rock. Ariel makes maneuvers in a helicopter that a hummingbird wouldn't try!

#6462 Aerial Recovery

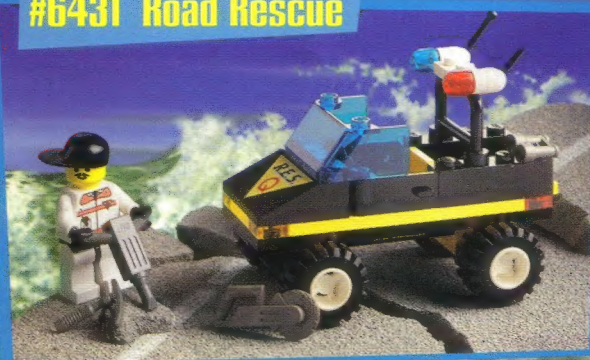

Race to the rescue in a high-speed helicopter. Just spin the rotors and take off for amazing aerial recoveries. If you can't land the copter, lower the raft for sea rescues or drop the bike for off-road emergencies.

NICK O'TYME

Nick is an expert with a rescue hook and line. With the #6479 Emergency Response Center tow truck, he once towed two Extreme Team Monster trucks down a massive mountain.

#6431 Road Rescue

Lower the stretcher and save the day!

FOLLOW ME TO THE RESCUE!

extreme emergencies!

6451 River Response

It's three vehicles in one set! The raft tames raging rivers to rescue stranded swimmers. The boat rides through the worst waves so you can reach the beach and ride to the rescue in the mini car.

THIS TRUCK IS LOADED WITH TONS OF TOOLS. STRETCHER MAKES INJURED HIKERS FEEL AT HOME.

6445 Emergency Evacuation

For emergency evacuations in the wildest wilderness, this rugged four-wheeling truck goes anywhere. To get to those tight places mountain climbers climb into, just launch the rescue line!

6479 Emergency Response Center

The Emergency Response Center is ready for any emergency. A high-flying helicopter takes off from the handy landing pad. At the dock, a powerful speedboat and raft wait for high-seas adventure. For land-based emergencies a tough tow truck and speedy cycle roar to the rescue.

Let's get extreme!

Let's meet the dynamic daredevils of the Extreme Team: Rex, Dex, Alexis, and Max.

Max is the team's coach. Coach Max is hanging out by the ocean in a 6572 Wind Runner. What's happening, coach?"

"We're taking a time out for an excellent experiment to show how air powers a 6572 Wind Runner. Point a hair dryer at the Wind Runner's sail and let it rip! You can move the sail into different positions, and see how the Wind Runner reacts. You can even race Wind Runners with your friends! Sorry, dudes. The wind is picking up here at the beach and I gotta zooooom..."

OH NO! I GOTTA PULL REX OUT OF THE SAND AGAIN!

"Wow, Max really took off across those dunes, but Rex just cruised in, in his 6568 Drag Racer. Let's see what's up with Rex."

"Hey, Maniac! I was just in a drag race rally. The light flashed green and my 6568 dragster screamed down the track at 250 miles per hour. I crossed the finish line ahead of the other dragster, but I shot off the track, flew over a hill, and sunk in the sand. Well, there's the chase copter and my ride back to camp."

#6568 Drag Race Rally

WE'VE GOT THE NEED FOR EXTREME SPEED!

High Five

 "See ya, Rex. Alexis is heading to her 6582 stunt plane for the acrobatic air show. Besides being an ace pilot, Alexis is the best whitewater rafter. She has even combined her two favorite activities into a new sport she calls bail and sail. She puts her raft on top of the 6582 stunt plane. When she reaches the top of a loop, she opens the plane's cockpit and bails out into the raft. Then she sails the raft through the sky down into a river. Let's tag along."

 "Hi, Maniac. We're going to go faster than sound—over 700 mph—so strap on a parachute."

"Let's start the stunt show with some simple maneuvers like a loop, figure eight, and barrel roll. Then, we'll show them some cool tricks like a lufberry turn, reverse Cuban eight, inverted spin, and avalanche!"

 "Ohhh. I think that lufberry turn inverted my stomach. I'm bailing! See you on the ground!"

There's the team's 6582 helicopter. That cool copter does those super stunts you see in the movies!

#6582 Daredevil Flight Squad

 And there's Daredevil Dex standing by his 6580 Land Jet 7. What a cool looking car. It looks so much like a jet, I bet it can almost fly. So, Dex, how fast will Number 7 go—about 300 mph?"

 "Are you kidding? Jet cars like the Land Jet 7 can go up to 760 mph! Number 7 and I are going to break the sound barrier and try for a new record."

After I fire up the jet engine, we'll blast down this aircraft runway for about 10 miles, hit the brakes, and then pop the parachutes to try and stop those 110,000 horses charging."

 "Looks like the daredevils of the Extreme Team can handle any challenge—on land, over water, or in the air!"

The Extreme Team is ready for fun. Rex likes to climb mountains and then slide down them on the zip line cable. In her favorite shock-absorbing four-wheeler, Alexis bumps over shaky bridges and tricky terrain. Max radically rafts the river's rocky rapids, and Dex rolls over rocks and other obstacles in the amazing monster truck.

Extreme Team Challenge is Packed with Adventure

"I like having a home base for the Extreme Team to hang out at. There's so much for them to do there," says Steven.

"Driving the four wheeler across the bridge is pretty cool because the bridge swings around kind of crazy and the four wheeler could fall into the river."

I also liked having the figures slide down the zip line. I would have the Extreme Team go to the top of the mountain and then slide down to the monster truck.

And they had to be really careful because I had them slide over lots of obstacles.

The tent was fun too. I put three of the figures in the tent and had another one trip the barrel, so the other figures would fall through the trapdoor in the tent and roll down the hill!"

Alexis

Four-wheeler's slick shocks absorb bumps and lumps.

Max

Mt. McKinley is 20,320 feet high, the highest spot in North America.

the Adventures of the LEGO Maniac

USING EQUIPMENT FROM #6584 EXTREME TEAM CHALLENGE, THE EXTREME TEAM PREPARE FOR THEIR TOUGHEST CHALLENGE YET!

THIS LOOKS DANGEROUS. I BETTER KEEP AN EYE ON THE EXTREME TEAM.

IN A 6582 HELICOPTER, THE EXTREME TEAM FLIES TO ALASKA FOR AN EXTRA EXTREME CHALLENGE... CLIMBING MT. MCKINLEY!

REX AND DEX, YOU TAKE THE WEST PATH WHILE ALEXIS AND I CLIMB THE SOUTH FACE.

OKAY, TEAM IT'S 20,000 FEET TO THE TOP. LET'S DO IT!

ON THE WEST PATH, REX AND DEX CROSS THE GREAT GORGE.

REX, THIS IS... THE LAST TIME... I TAKE ONE... OF YOUR... SHORTCUTS!

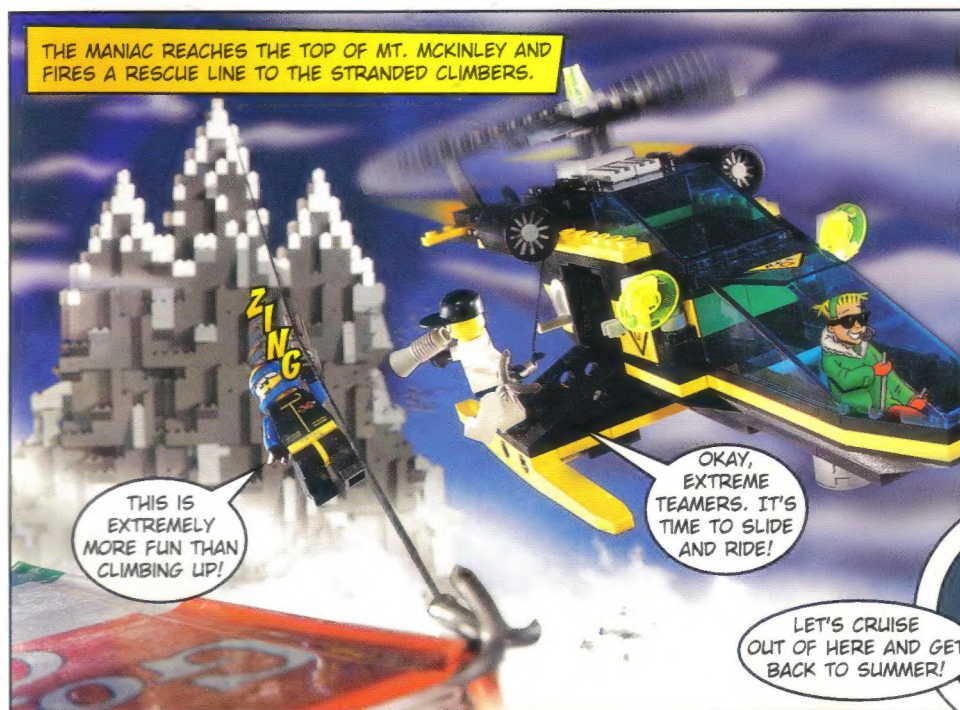

YOU'RE LUCKY THIS FOUR-WHEELER HAS REAL SHOCK-ABSORBING SHOCKS!

THE GLACIER IS MELTING. YOU EXTREME TEAMERS NEED A LIFT ACROSS THE RIVER?

WHOOAAA! THAT RIVER ISN'T ON THE MAP!

NEGATIVE, RES-Q. WE'LL RAFT ACROSS.

On Mt. McKinley, climbers have to watch out for icefalls, avalanches, snow slides, snow blindness, and frostbite.

Although it can be nice and warm at the bottom of Mt. McKinley, at the top, climbers can face temperatures of 50 below zero!

Rapid Res-Q Response!

Pitch in and help the heroic Res-Q Squad rescue the people trapped in the raging river. These brave heroes respond quickly to any emergency in the 6451 River Response, and 6479 Emergency Response Center. Look carefully at the soggy scene to find 10 hidden letters.
